ABOUT ME

Information Technology student passionate about technology and problem-solving. I have a basic foundation in troubleshooting, computer hardware, and web fundamentals. I keep learning through practice and projects while building the skills needed to contribute in a technical role.

SKILLS

TECHNICAL SKILLS

- Hardware troubleshooting
- Web development
- Networking (Basic)
- Software installation
- Operating systems (Windows)

SOFT SKILLS

- Communication
- Teamwork
- Problem-solving
- Adaptability

EDUCATION

Bachelor of Science in Information Technology (BSIT) 2023 – Present
Bulacan Agricultural State College

TVL–Information Communication Technology 2021 – 2023
San Miguel National High School

ACADEMIC PROJECTS

biftci.com 2025 – 2026
A web-based HR and farm operations management system for Bausa Integrated Farm and Training Center Inc. Developed the Laravel backend, including facial recognition attendance (Python, DeepFace) with JavaScript-based liveness checks in the browser, payroll computed automatically from attendance records, role-based access control, and email notifications. Also contributed to the user interface design.

Techvend 2024
A multi-vendor e-commerce website for gadgets featuring three user roles: customers can browse products, place orders, and make secure payments through Stripe; sellers can manage their products and orders; and administrators can manage users, sellers, and the overall platform.

EquipTrack 2024

A mobile application that digitizes the equipment borrowing process of the College of Engineering and Technology at Bulacan Agricultural State College. Built with React, with a borrowing request workflow, QR code verification for borrowing and returns, and real-time equipment status tracking.

FREELANCE PROJECTS

biftciroi.com 2025
A web-based system for Bausa Integrated Farm and Training Center Inc. Developed with Laravel, it records expenses and income to compute the return on investment (ROI) of the center's farm and training operations, with reports s for decision-making.
